Solo fingerstyle guitar

Live performance and recording in Maine and New Brunswick

Bob Bowman performs intricate, classical-inspired arrangements of traditional Celtic and American music, familiar jazz and pop standards, tunes by friends, and his own compositions.

Bob's low-key instrumental style appeals to all ages providing a wonderful accompaniment to fine dining, gallery openings, receptions, and more. Appearances are regarded as a partnership with venue owners to provide an affordable, quality experience for the audience. Booking agreements are logically adjusted to each situation and space.

Bob can provide a professional sound system for rooms from 20 to 200 people. His innovative use of wireless technology permits flexible speaker placement (without cables) and the ability to transmit a high-quality signal directly to any in-house sound system for low-volume distribution throughout a restaurant, gallery, garden, or other non-traditional or multi-room performance space. Bob generally requires only floor space for a stool and access to an electrical outlet.
